

POLICE GET NEW ORDERS TO HOLD SALOONS TO LAW

Rules Set Forth by Council to Chief to Enforce Closing Ordinance.

OPEN GAMBLING ALLEGED

Chief Brinn in Answer to Commissioner Rudgren Says Only Pitch and Skat Are Played in Place.

NEW POLICE RULES.

Officers shall instruct saloon owners to draw back curtains at midnight. Heretofore this was only done on Sunday.

Closing hour law shall be more rigidly enforced. Each officer shall make daily reports as to the closing hour of saloons on his beat.

All infractions of the law found by the officers shall be reported to the council so the commission may act in the matter.

Each saloon shall have at least small space of transparent glass in front so that officer may see inside.

Is there open gambling in Rock Island? Are the saloons closing at midnight? Do the bars keep tight on the Sabbath?

All these questions and more, too, were discussed by the city council in the adjourned meeting yesterday afternoon, and resulted in more rigid instructions being given the police.

The discussion followed the appeal made by Charles Kohn, proprietor of the Turner Hall saloon, 1522 Third avenue, to the commission to rescind its action taken Monday when his license was suspended for ten days. The council would not change its voice.

It was when Chief of Police James Brinn arrived that the council discussed the matters at length. Previously the mayor had inferred that there was a general tendency of saloon keepers to break away from the Sunday closing law.

Rudgren Starts Something.

Commissioner Rudgren started something when he stated that the chief was present and that he might have heard of some of the rumors of saloons being open on Sunday.

"I have heard rumors several times of places not being closed," said the chief, "and I have investigated every one. If I would have found the reports true I would have reported it to this council. My motto is not to protect any one."

"Is only through a diligent search or that these places can be found," said Commissioner Rudgren, "but out of fairness to the fellow who is running his saloon in conformance with the law, the others who are not, if there are any, should be reported and punished."

"My men get their orders relative to the saloons, two or three times a week. Both the day and night sergeants give them out," explained Chief Brinn.

"Chief, did you ever hear any rumors of wide open gambling over the saloon, at 221 Twentieth street?" asked Commissioner Rudgren.

Investigated Gambling Report.

"Yes, I did," was the reply, "and I sent some of my men up to investigate it several times. When they got there they found only a pitch game or skat in progress. They have never got the goods on any of them there and whether they changed to pitch or were playing it all the time, I do not know."

"We are depending upon you and your men," said Commissioner Rudgren, "to find out if there is anything wrong at any of these places and to report to us so that we can act upon the matter."

Mayor Schriver then stated that

QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of Salts before breakfast if your Back hurts or Bladder is troubling you.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidneys, they become overworked from the strain, get sluggish and full to the brim with waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will be fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in the urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent mineral water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

Harper House Pharmacy.—(Adv.)

MILLION DOLLAR MYSTERY DEEPENS

Tiley L. Ford.

"I did not know that the \$1,000,000 had been diverted from the United Railroads' treasury to Mr. Calhoun," recently declared Tiley L. Ford, general counsel for the United Railroads of San Francisco, testifying before the California railroad commission.

The commission is endeavoring to trace the million dollars which Calhoun as president of the road was authorized by the stockholders to invest in the Solano Irrigated Farms, a California venture. The money was all lost.

There were some of the saloon keepers who were not closing up promptly at 12 o'clock. Chief Brinn stated that the men could not be everywhere on their beats at midnight, but got around as soon as possible to see that the places were closed.

"Well it won't hurt to instruct your men again to see to it that the saloon keepers pull their curtains back at 12," answered the mayor. The question then arose relative to whether it was compulsory by the ordinances for the saloon keepers to pull their curtains during week nights. Commissioner Archie Hart said that he was of the opinion that it was just over Sunday that the screens had to be drawn.

General Police Order. "Well, make it a general police order, and have your officers instruct the saloons tonight that they have to draw their curtains at 12 sharp," said Mayor Schriver.

The windows and the panes in the doors of some of the saloons in the city are frosted or painted glass. One of the commissioners asked about these places, querying relative to the officer's ability to see into the bars to determine whether or not the places are closed. An edict was issued whereby the saloon men will be required to scratch the paint off or make the glass transparent, so that an officer will not have to get a step ladder to see into the saloon," as one commissioner expressed it.

Commissioner Rudgren then suggested to Chief Brinn that each of his officers make reports as to the closing of the saloons on his beat. This suggestion found favor with the council and all officers in the future will be required to do so.

The police are also to be instructed to make reports of all proprietors who are not complying strictly to the law, so that the council may act upon each case.

ANDERSON ASKED TO RETURN HERE

Former Augustana Teacher Receives Call From Board of Directors.

I. M. Anderson of Chicago was tendered a call to the chair of Greek at Augustana college by the board of directors of that institution at the closing session yesterday afternoon. Mr. Anderson was formerly connected with the college as teacher of Greek, resigning the position two years ago to accept a place with the Scandia Life Insurance company in Chicago. In the interim the chair has been filled by Dr. G. A. Andreen, president of the institution. It is understood that Mr. Anderson will accept the call and return to his former field of work.

The board also granted Professor C. L. E. Ebborn a leave of absence which will be taken either the coming or next year. Professor Ebborn will devote this time to study and recreation and will probably go abroad.

M'REYNOLDS QUITE SURE TO GET LURTON'S PLACE

Washington, D. C., July 29.—President Wilson is expected to appoint Attorney General McReynolds to the supreme court to succeed the late Associate Justice Lurton before the end of this session of congress.

Several democratic senators who called at the White house to arrange for the reception of delegations from their respective states urging the claims of various candidates were informed that the president has made up his mind. The senators went away convinced that Mr. McReynolds will get the place.

Speculation upon the successor of Mr. McReynolds as attorney general already is rife.

Those most prominently mentioned are Secretary of the Interior Lane, Secretary of War Garrison, Fred Lehmann and Corporations Commissioner Joseph Davies of Wisconsin.

COUNCIL REFUSES TO CHANGE VOICE

Turner Hall Proprietor Is Rejected When He Asks for License Back Again.

MAKES A STRONG APPEAL

Mayor Refutes Assertions Made in All of the Picas and Commission Turns Deaf Ear.

When Charles Kohn, proprietor of the Turner Hall saloon, 1522 Third avenue, whose license Monday was suspended for ten days by the city commissioners, appealed to the council yesterday stating that he had only been serving breakfast in the saloon on Sunday. Mayor Schriver responded that the place would soon become quite popular for Sunday morning breakfasts if such was the case.

The council refused to change its action of the day before, not, however, without a strong appeal having been made by Mr. Kohn, and also J. J. Taxman, a local agent for a brewing company which does business with Mr. Kohn.

When the August DeGuttenar case was settled by the council and the proprietor was allowed to go after he received a good warning as to what was expected of him in the future, Mr. Kohn appealed to the council to grant him back his license. He said that he did not sell any beer in his place and that he did not know it was against the law to treat friends in the place. He asked for another chance.

"I gave you fair warning when you took that place several months ago," said the mayor to Mr. Kohn. "I explained the laws to you and told you that both of your predecessors had been fined for disobeying the laws."

"I was only serving breakfast in there," responded the owner. "If that is the case, your place would soon become quite a popular one for Sunday morning breakfasts, with a beer thrown in with the meal," was the mayor's response.

J. J. Taxman, agent in this city for a brewing company which does business with Mr. Kohn, also appealed to the council to rescind its action of the day before. He explained that he had known Mr. Kohn in Davenport and that he had always been a law-abiding citizen while in that place. He stated that it was the ignorance of the law which caused Mr. Kohn to do as he had done Sunday and stated that the proprietor had told him that he had only been serving breakfast in the place.

The mayor answered: "You and I know and we all know that there were prominent men in and out of that saloon Sunday. And they didn't go in to get breakfast either, because they are all men of families and have their breakfast provided for them at home."

Explains Cost.

Mr. Taxman then explained what it meant to Mr. Kohn to have all his food-stuffs on hand going to waste and then referred again to the proprietor's ignorance of the law in the matter.

"There is nothing to that plea of not understanding the laws," responded the mayor. "I had a particular understanding with him at the time."

Commissioner Hart said: "I am not in favor of returning his license to him now. We can't take action one day and then the next day turn around and change it. If we did that, people would think that we did not know our own minds."

The council ordered a voucher drawn for A. E. Lord for \$223.39 for laying of sidewalks.

Mr. DeGuttenar, who with Cyril Octers, conduct a saloon at the corner of Seventh avenue and Seventh street, explained to the council in answer to charges preferred by Wallace Treichler, city engineer, that the two men who went into his saloon Sunday morning with suit cases only secured their carrier pigeons, which had completed the flight from Pittsburgh to Rock Island Friday.

As Mr. Treichler could not state exactly what was in the suit cases the matter was dropped, not without giving the proprietor a warning as to what was expected of him in the future.

HILL SECTION IS BRIGHT DISTRICT

New Tungstens Installed on Every Corner, Turned on First Time, Show Results.

While Aurora is popularly termed the "City of Lights," it has nothing on the hill district now, at least the residents of that section of the city claim that it has not.

Last night for the first time the new tungsten lights, which have been installed at every corner, from Twenty-fourth street east and from Twelfth avenue south to the city limits, were lighted.

Heretofore arc lights were located at every corner, but under the new contract signed by the council with the People's Power company, provision was made for the tungsten lights at every corner in the outlying districts.

The new lighting system has made a decided hit, and corners formerly veiled in darkness no longer hold terrors for the timid, as the tungstens do the work.

Nine states of the United States, with an aggregate population of 15,866,695, prohibit saloons.
